Social Sciences Area

Learning by doing.

The 'Learning by Doing' methodology or Challenge Based Learning, characteristic of the Social Science and Communication Faculty of the Universidad Europea, crystallizes in the **Challenge Based School**. This school promotes a pedagogical approach that actively involves students, as well as their teachers, in a collaborative way, in a real, relevant situation, linked to the environment, which implies the definition of a challenge and the implementation of an achievable solution. In this way, the student learns by facing a challenge that he must solve, just as he will do when he exercises his profession after finishing his university studies.

Differential elements of Experiential Learning:

- Own laboratories and clinics: Legal Clinic, Criminalistics Workshop and International Relations Observatory.
- More than 100 partners involved between companies, institutions, offices and NGOs.

- Development of crucial skills for the professional world.
- University-Company/Institution knowledge transfer.

Take the lead in your own learning! Work and solve real and current challenges in the **Challenge Based School**.
